

This unique surface is based on our proven Rebound Ace Grand Slam technology for long life permanent cushion properties and durable top coats. We have designed outdoor and indoor versions that offer affordable, genuine, cushioned courts using the proven superior polyurethane / rubber mat technology for clubs, resorts and private courts.

Rebound Ace GS Club now places long life player comfort and ITF rated playing properties at an affordable price, into the market previously held by clay, synthetic grass and liquid applied cushion acrylics.

BASE:

Concrete, asphalt and for indoors add timber and compressed fibre cement floors.

Sample panel showing actual layers and featuring **Outback Clay** playing area and **Grass Green** outer area
